

Welcome to Rokaysan

- ▶ ***“Every new project is a challenge....”***
- ▶ ***“Commitment to excellence is the hallmark of our culture”***

From The Beginning...

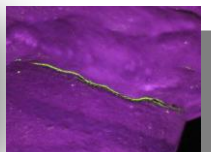

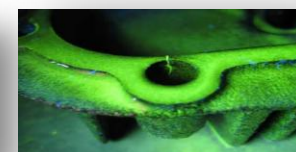

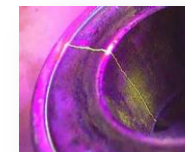

Rokaysan in Brief

Established in 2006 and based in Bursa- Turkey, **Rokaysan Engineering Services Co. Ltd.** is a privately owned company, offering a comprehensive range of

- ▶ Non Destructive Testing,
- ▶ Inspection Services,
- ▶ Quality Assurance / Control

to various sectors, mainly;

- ▶ Oil & Gas
- ▶ Petrochemical
- ▶ Marine & shipping`
- ▶ Automotive

Mission & Policy

Our Mission:

Achieve quality at the highest level and provide our services with the advanced technologies and their application in Inspection & Certification.

Our policy:

- ✓ Use advanced systems and devices.
- ✓ Use quality materials, work with trained & professional engineers according to GOST & American and European standards.
- ✓ Provide periodic training to develop and keep the technicians' knowledge updated.
- ✓ Increase our technicians' self-satisfaction and as a result; improve our performance and quality.
- ✓ To use international standards and meet the customer standards & requirements to improve quality of work and safe work.
- ✓ Comply with Company & Client HSE requirements.

Services

Non Destructive Testing

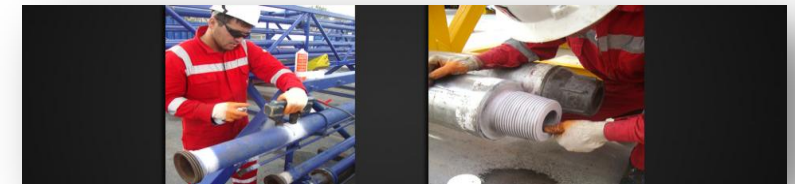

Rokaysan offers a wide range of NDT services, including:

Rokaysan is a major provider of laboratory and site based non destructive testing, within the Turkey and abroad.

With a well – established reputation based on a proven track record, Rokaysan delivers you the most effective NDT services to carefully examine the reliability of your processes and the integrity of your equipment and assets.

Quality Assurance / Control

Services

Non Destructive Testing

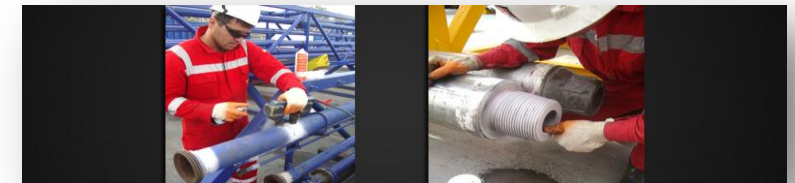

Rokaysan offers a wide range of NDT services, including:

- ▶ Magnetic Particle Testing
- ▶ Dye Penetration Testing
- ▶ Radiographic Testing
- ▶ Ultrasonic Testing
- ▶ Visual Testing

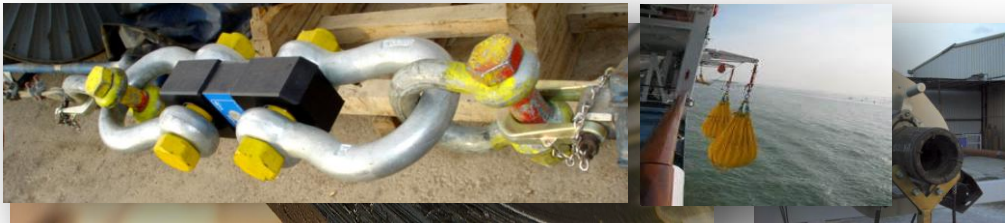

Inspection Services

Quality Assurance / Control

Services

▶ **Proof Load Testing and Thorough Examination of Lifting Appliances and Accessories**

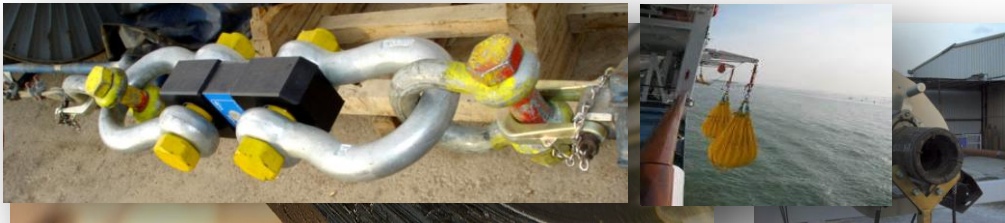

Inspection Services

Quality Assurance / Control

- ▶ Runway beams and swing jibs
- ▶ Lifeboat / life raft davit winches
- ▶ Powered hoists, utility winches and manual winches
- ▶ Fork-lift trucks and stackers
- ▶ Overhead travelling cranes (OHTCs) and gantry cranes

Services

► Drill Stem & Rig Mast Inspection

Inspection Services

- Periodic drillpipe inspection, and inspection of drill collars, subs, and other drilling tools is essential in preventing downhole failures. Inspections are conducted at the drilling rig or facility by a certified inspector, with completely self-contained mobile inspection units.

Quality Assurance / Control

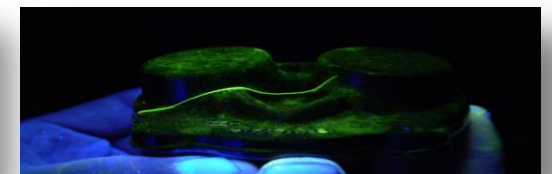

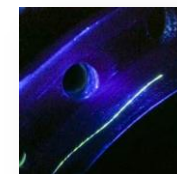

- The inspector uses several NDT methods to check the high-stress areas, such as connections, slip areas, upset areas, weld areas, radius changes, and tubes, to detect cracks and indications.

Services

- ▶ Non destructive testing (NDT) is a vital way of establishing and verifying the quality of machinery and equipment. So at Rokaysan we invest a lot of time and energy in our quality assurance and quality control procedures to ensure we adopt the best possible practice.
- ▶ We also believe the Rokaysan team has a responsibility to provide the most rigorous testing procedures so our clients can be confident that our service is of the highest standard.

**Quality Assurance /
Control**

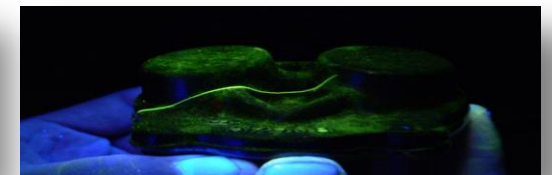

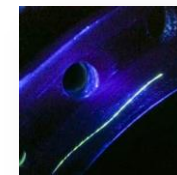

Services

► **Our quality assurance processes include:**

- Fabrication inspection
- Welding supervision and monitoring
- Structural and dimensional checks
- Painting supervision and monitoring
- Third party inspection services

**Quality Assurance /
Control**
